MS-760 / 762 Cleaning Agent

Description

MS-760 and MS-762 Cleaning Agent is a special solvent blend of a hydrofluorocarbon fluid and isopropanol. It is intended for use in the removal of water from nonporous surfaces, as well as cleaning particulate and ionic soils from component parts. This product offers solvency for polar soils, while maintaining excellent compatibility with most plastics and metals. Typical applications include absorption drying, precision and specialty cleaning and rinsing for removing particulates, fingerprints and light soils, from metal, plastic and glass parts. It is an ideal choice for absorption drying where nested parts or complex geometries make water removal difficult or energy intensive.

ADVANTAGES

- · Evaporates quickly
- Leaves no residue
- Nonflammable
- Compatible with most plastics, elastomers and metals
- Non ozone depleting
- RoHS Compliant

MS-762 (bulk): Vapor degreasing is suggested for optimum cleaning effectiveness. Modern vapor containment technology is recommended for both batch and in-line equipment. These systems have higher freeboard and a secondary set of low temperature (-20°F/-29°C) condenser coils to greatly reduce vapor losses.

PHYSICAL PROPERTIES

(Measured @ 77°F, unless otherwise noted)

Liquid density	
Boiling point	129°F/54°C
Vapor pressure	
Surface tension	14.1 N/m
Viscosity	0.75 cPs
VOC Content	
Aerosol	110 gms / I
Bulk	142 gms / I

PLASTIC COMPATIBILITY

(Immersion: 15 Minutes at Room Temperature)

Polyethylene Polyphenylene Oxide, PPO Polyester, PET, PBT Polyimide, PI, PEI, PAI Polyetherketone, PEK Polyaryletherketone, PEEK Polyarylsulfone Polypropylene Polyphenylene Sulfide, PPS ABS Cellulosic

Acetal Epoxy Liquid Crystal Polymer Phenolic PTFE, ETFE CPVC, PVC lonomer Polysulfone Polystyrene Acrylic

ELASTOMER COMPATIBILITY

(Immersion: 15 minutes at Room Temperature)

Buna N, NBR, Nitrile Butyl Rubber, IIR EPM, EPDM Natural Rubber, Isoprene Urethane Silicone

Buna S, SBR, GRS Chlorosulfonated PE Polysulfide Neoprene Viton[™] B

METAL COMPATIBILITY

(2 weeks at 212°F/100°C in sealed tubes)

Zinc	A
Brass	5
Copper	

Aluminum Stainless Steel

Large amounts of water may extract alcohol and affect cleaning performance. Therefore, to reduce alcohol loss, use desiccant dryers rather than water separators in the condensate return line. Contact with highly basic process materials, pH 10 or above, is not recommended.

Safety Data Sheets (SDS) are available upon request.

Viton[™] is a trademark of The Chemours Company FC, LLC.

LIMITATION OF LIABILITY AND REMEDIES: Manufacturer warrants that, at the time of shipment by the LIMITATION OF LIABILITY AND REMEDIES: Manufacturer warrants that, at the time of shipment by the Manufacturer, this product is free from defect in material and manufacturer. If the product is proved to be defective, the exclusive remedy, at Manufacturer's option, shall be refund of the purchase price or replacement of the defective product, provided written notice of the defect is given no later than one year after the date of shipment by the Manufacturer. Manufacturer shall not otherwise be liable for loss or damages whether direct, indirect, incidental or consequential, regardless of the legal theory asserted, including negligence and strict liability. Manufacturer expressly disclaims all implied warranties, including the implied warranty of merchantability and the implied warranty of fitness for a particular purpose. There are no warranties which extend beyond the description on the face hereof.
